Last Updated September 2026

EDUCATION

University of California - Berkeley, Berkeley, CA — Expected May 2028
Doctor of Philosophy (PhD), Statistics | Advisor: Bin Yu — *GPA: 3.98/4.0*
Supported by NSF Graduate Research Fellowship

Rice University, Houston, TX — May 2023
B.S. Statistics
B.S. Computer Science, Specialization in Machine Learning
B.A. Mathematics
Distinction in Research & Creative Work

SELECTED PUBLICATIONS & PREPRINTS

Z. Rewolinski, C. Wang, W. Xu, B. Yu, J. Gao. "MESA: Scoring the Volume and Stability of Comparative Claims." *Under review*, 2026+. Preprint available upon request.

Z. Rewolinski*, A. Zane*, H. Huang, C. Singh, C. Wang, J. Gao, B. Yu. "Sanity Checks for Agentic Data Science." arXiv:2604.11003, 2026+.

Z. Rewolinski, B. Yu. "Predictability–Computability–Stability workflow for veridical data science in the age of artificial intelligence", *Philosophical Transactions of the Royal Society A* 384: 20240605, 2026.

Z. Liang*, **Z. Rewolinski***, A. Agarwal, T. Tang, B. Yu. "Local MDI+: Local Feature Importances for Tree-Based Models." *Transactions on Machine Learning Research (TMLR)*, 2026.

L. Zheng, **Z. Rewolinski**, G. I. Allen. "A Low-rank Tensor Completion Approach for Imputing Functional Neuronal Data from Multiple Recordings." *IEEE Data Science & Learning Workshop (DSLW),* 2022.

RESEARCH EXPERIENCE

Research Intern — June 2026 - September 2026
Deep Learning Group, Microsoft Research, Redmond, WA
Mentors: Chenglong Wang, Weijia Xu

- Proposed a framework for measuring the stability of comparative performance (under review).

Graduate Student Researcher — January 2024 - Present
Yu Group, University of California, Berkeley
Advisor: Bin Yu

- Created a novel framework for local feature importance in tree-based methods (TMLR 2026).
- Designed a workflow that stress-tests every step of a data science pipeline for stability, making AI-era data science more replicable and trustworthy (Phil. Trans. of the Royal Society A 2026).

Undergraduate Researcher — January 2021 - August 2023
Statistical Machine Learning Group, Rice University, Houston, TX
Advisor: Genevera Allen

- Developed a novel tensor completion approach for imputing neuronal data (IEEE DSLW 2022).

Research Assistant — May 2020 - January 2021
D2K Lab, Rice University, Houston, TX
Advisors: Daniel Kowal & Daniel Cohan

- Modeled COVID-19's impact on emissions and energy use (CMAS & AGU 2020, AMS 2021).

INDUSTRY EXPERIENCE

Associate Analyst, Baseball Research & Development (Part-Time) November 2025 - Present
Intern, **Baseball Research & Development** June 2025 - August 2025
San Diego Padres, San Diego, CA

- Produced player-performance projection modeling for roster construction and player evaluation.

Team Lead, Baseball Analytics January 2021 - December 2021
Rice Baseball Analytics, Houston, TX

- Led a team of analysts in delivering research, player development, and advance scouting reports.

Data Science Intern May 2021- August 2021
Principal Financial Group, Des Moines, IA

- Built an 'engagement score' to track and encourage savings for 5M+ retirement plan participants.

Data Science Intern June 2020 - August 2020
January Advisors, Houston, TX

- Analyzed geospatial COVID-19 exposure risk analysis of over 13,000 Texas child care centers.

TEACHING EXPERIENCE

Graduate Student Instructor
UC Berkeley, Berkeley, CA

- STAT 214 - Data Analysis & Machine Learning for Decision Making (Spring 2025, 2026)
- STAT 133 - Concepts in Computing with Data (Spring 2024)

Teaching Assistant/Grader
Rice University, Houston, TX

- DSCI 101 - Introduction to Data Science (Spring 2023)
- STAT 411 - Advanced Statistical Methods (Spring 2023)
- ELEC 478/578 - Introduction to Machine Learning (Fall 2022)
- STAT 425 - Introduction to Bayesian Inference (Fall 2022)
- COMP 140 - Computational Thinking (Fall 2020, Spring 2021, Spring 2022)

HONORS AND AWARDS

- **Outstanding Graduate Student Instructor Award**, UC Berkeley March 2026
- **NSF Graduate Research Fellow**, National Science Foundation May 2023 - Present
- **Outstanding Senior Capstone Award,** Rice Department of Statistics April 2023
- **Rice Undergraduate Scholar**, Rice Office of Undergraduate Research and Inquiry April 2022
- **1st Place Overall**, Rice Datathon January 2022
- **Best Social Impact Project**, Rice Datathon January 2022
- **CMMRS Pre-Doctoral Scholar**, Cornell, Maryland, and Max Planck Institute August 2021
- **RECODE Fellow**, Rice University May 2020
- **Best Poster Award**, Society for American Baseball Research June 2019

SKILLS

Programming: R, Python, SQL, Stan
Tools: Pandas, TensorFlow, PyTorch, NumPy, Git, LaTeX
